

To facilitate a solid reputation for producing quality parts, achieving timely delivery, and providing competitive pricing, our organization has developed a Quality Management System (QMS) to better satisfy the needs of our customers and to continually improve the overall management and success of our company.

In doing so, this Quality Policy has been formulated, implemented, and is committed to:

- Consistently meeting customer requirements
- Always providing our customers with the best products available
- Continually improving the QMS and the service we provide to our customers
- Adhering to all customer requirements, as well as those defined in the international standard AS 9100

It is our goal to provide our customers World Class Quality with on-time deliveries at a competitive price. These goals are accomplished by a highly skilled workforce with capable, focused management and technical excellence.
